## BEAULIEU *of* AMERICA

To whom it may concern:

Thank you for your request concerning a material safety data sheet for products supplied and/or sold to you which we manufacture. Please be advised that finished carpet, rugs, wall covering, and/or yarn exhibits performance parameters which meet the definition of "article" under the Code of Federal Regulations, Title 29, Chapter XVIII, part 1910, subpart Z, paragraph (b) (5). An "article" is defined in the Federal Register as a manufactured item: (i) Which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which does not release, or otherwise result in exposure to, a hazardous chemical under normal conditions of use.

This essentially means that finished carpet, rugs, wall covering and/or yarn are excluded from OSHA's Hazard Communication Standard in regard to material safety data sheets because they fall under the above definition of an "article".

In addition, our products do not contain any of the listed chemicals under California's Proposition 65 known to cause cancer or reproductive toxicity.

Thank you for your inquiry and your continued support of our product line.

Best Regards,

Bob Ingram, CSP, ARM
